Dear WSRM Central Office,

International Microsurgery Club (IMC) expresses full support for hosting the WSRM Congress 2031 in Utrecht, the Netherlands as the venue. As the largest online microsurgery platform and a core partner of WSRM, IMC highlights the congress's vital role in fostering international collaboration, scientific exchange, and professional networking among clinicians, researchers, and experts, while also expressing desire to participate during the event.

IMC endorses the Netherlands as an ideal host nation, citing its strong reputation for medical science, healthcare innovation, multidisciplinary teamwork, compact geography, and excellent infrastructure. Hosting the event in Utrecht is expected to facilitate impactful global knowledge sharing and further elevate the Netherlands' visibility as a leading destination for major medical and scientific gatherings. IMC concludes with full confidence that Utrecht will deliver a compelling, inspiring, and successful congress.

Best Wishes and Regards

Tommy Nai-Jen Chang, M.D

Professor,
Division of Reconstructive Microsurgery
Department of Plastic and Reconstructive Surgery
Chang-Gung Memorial Hospital, Linkou Medical Center, Taiwan
President of International Microsurgery Club
